Special Abilities

**Extra Inventory (10)**  
Tate is a huge man and has the ability to carry 10 items of inventory (2 more than standard).

Tate has the following powers when using the shield:

**Forced Moving Attack/Charge**  
This power allows the user to force themselves into a location. This is done by a series of furious attacks or sheer force. The result is the user will not be bounced back during a collision. Used with Moving Attack and Charge actions.

**Crushing Hit**  
This power allows the user to do twice the normal score and damage when attacking. It is only able to be used when an opponent is charged and is stuck between a wall and the charging person (This works as long as the space past the attack direction is a wall). The result is a 10 point score for the attacker and a -10 score to the defender. If the defender has a block in the direction of attack they will receive -5 score.

**Limitation:**  
The use of the shield prevents Tate from performing Leaps, Flying Attacks or using thrown weapons. This does not appear to bother him.

Background:

Tate uses 2 shields in combat to run down his opponents. This rather brutal method is very effective and makes him a very formidable opponent in the arena.

Tate is extremely large in size, has brown hair, and wears dark green robes. He has a deep voice and talks rather slowly. He is not the brightest, but makes up for it in brute strength. He loves competition of any kind and is often found gambling over something.

Tate's size allows him to use shields in both hands (one to block and the other to attack). He depends on running into opponents to do damage to them. He is quite formidable in close quarters and loves small arena fighting the best. This allows him more opportunity to do his special move - "Crushing Hit".

- Tate can use the Shield as a weapon which allows him to perform an instant Charge. The charge is a special move that results in a block, move, and attack in the location you move into.
- The Shield is a block item that allows the user to rotate the block direction 1 step left or right at the end of every turn. The block must be uncovered and replaces the normal block you would otherwise get.

Tate is an associate of So, who brought him to the arena as a helper. Little is known about Tate's family or history.

Tate - "I lova good fight! Wanna try me?"
